MATHEMATICS 5 PYP 5 MYP 0

First edition - 2024 initial print

The following errata were made on 03/Nov/2026

page 98 **CHAPTER 9 SECTION A** diagram should read:

page 185 **CHAPTER 13 EXAMPLE 1** solution should read:

Example 1 **Self Tutor**

Describe how this figure can be made using *three* common shapes.

List the shapes you use.

We start with a rectangle.

On the left end we draw an isosceles triangle.

On the right end we remove a semi-circle.

The figure can be made using a rectangle, an isosceles triangle, and a semi-circle.
